PARTNERSHIP OPPORTUNITIES - 2022

NOT YOUR ORDINARY GIRL

About Zee

I am a professional stunt driver, stunt woman, and precision driver, licensed to drive everything road-legal.

My driving has been used to sell cars for most major manufacturers, from Ford and Chevrolet to BMW, Mercedes and Audi. As a stunt performer, my work has been featured in some of the biggest movies and tv shows of the last few years, from XXX to Deadpool, CW's Arrow, Flash and Supergirl.

There is nothing subtle about my approach. I get attention, and we can use that to your benefit.

My driving skills, cars, and connections will promote your products on a sideways, engine screaming, tire smoke-filled canvas that will be impossible to ignore.

My cars, van, trailer, and clothing are all mobile billboards ready for your logos, always traveling to motorsport events across North America, increasing exposure for my sponsors.

I work in the film industry to fund my race car habit, throwing myself down stairs and driving all forms of vehicles at their limits to pay for more tires and better parts for my cars.

My relentless passion to push myself to my limits and build my skills has helped me to create a successful career as a performer of physical stunts, a stunt coordinator, and a stunt driver for major films, television, and commercials.

I set my sights on Pro-Am drifting in 2019, and earned my FD Pro-Spec license in 2021. I'm just getting started.

For 2022, I will be running two fully prepped, competition-legal drift cars in events across North America.

Why Zee?

I am articulate and comfortable with people, crowds, and cameras. People are surprised to see me step out of the car, and when they do, they want to connect with me and know my story.

I appeal to entire families in a way that a male driver cannot. I have watched moms connect with their sons when they see that their favourite car was driven by a girl. Kids' eyes light up when they sit in the car, both boys and girls, and I love seeing their ideas shift about what's possible for them in the future.

I deliver beyond my promises and I get results for the people working with me. Working with me will generate exposure for your product across North America and across demographics. People want to know – whose angle kit am I running? What body kit is that? What was my experience with this vendor? Why did I choose that clutch? Which tires are you running? I can answer all of these questions knowledgeably and am always happy to take the time to do so.

I can also set myself on fire while holding, wearing, or using your product. Safely.

“I juggle a full-time job and running my business and feel I'm a hard-working individual. Zandara is the first person I've met who, by example, showed me that I can do more. She is incredibly dedicated to both her career in the film industry and becoming a professional drifter. She takes her drifting aspirations very seriously, and this is easily evidenced by how much of her own time, talent, and treasure she has invested over the last year. She surrounds herself with the best in the business and the amount her talent has grown in a single season is a testament to that.

There is not a single minute of a single day that I regret helping Zandara start her drifting career.”

WHAT PEOPLE ARE SAYING...

jonathancash16 @zeedrives ❤️
 I'm not even gonna lie, I chased you and after went to the pits and said who was the guy driving the z? They were like I think it's the girl actually, and we all agree you were killing it the whole weekend! You were so smooth in front!
